Meeting Purpose

- Do we want the Salinas River Long-Term Management Plan (LTMP) to support the Salinas River Stream Maintenance Program (SMP) going forward?
 - If so, what elements should feed into the LTMP?
 - Are there specific management objectives or actions to consider?
- What background information does the Planning Group need to understand these recommendations?

Materials shared in Advance

- LTMP Purpose and Goals, and draft Outline
- Draft* SMP Background Memo

Agenda Topics

- Review what the SMP was set to accomplish
- What is the regulatory framework for SMP moving forward?
- Identify future opportunities for maximizing the benefits from the program.
- What program elements may fit in the LTMP?
- Determine what information should be sent to the LTMP Planning Group for consideration.
