

Acknowledgements

Development of this long-term management plan was made possible with funding provided by the State of California and administered by the State Coastal Conservancy. In-kind contributions were provided by the Monterey County Water Resources Agency and by stakeholders, primarily through participation in the planning group and associated working group meetings.

We would like to extend our thanks and gratitude to the members of the planning group including representatives from the following entities. Note that the listing of these names here does not imply that these entities agree with or support in full the content of the Salinas River Long-Term Management Plan.

- Braga Farms
- California Coastal Commission
- California Department of Fish and Wildlife
- California State University, Monterey Bay
- Central Coast Wetlands Group
- Costa Farms
- County of San Luis Obispo
- Farm Bureau of Monterey County
- Greenfield/Arroyo Seco Groundwater Sustainability Agency
- Grower-Shipper Association of Central California
- Marina Coast Water District Groundwater Sustainability Agency
- Merrill Farms
- Monterey Bay National Marine Sanctuary
- Monterey County Resource Management Agency
- National Marine Fisheries Service
- Ocean Mist Farms
- Rava Ranches
- Regional Water Quality Control Board, Central Coast
- Resource Conservation District of Monterey County
- Salinas River Stream Maintenance Program River Management Unit Association
- Salinas Valley Basin Groundwater Sustainability Agency
- San Bernardo Rancho
- State Coastal Conservancy
- The Nature Conservancy

- The Otter Project
- Trout Unlimited
- U.S. Fish and Wildlife Service
- Upper Salinas-Las Tablas Resource Conservation District

List of Tables	iii
List of Figures.....	iv
List of Acronyms and Abbreviations	vii
Executive Summary	E-1
Chapter 1 Introduction.....	1-1
1.1 Overview	1-1
1.2 Purpose and Goals	1-2
1.3 Scope.....	1-3
1.3.1 Geographic Scope	1-3
1.3.2 Water Resource Management Activities Considered	1-8
1.3.3 Planning Horizon.....	1-8
1.4 Preparation Process	1-9
1.4.1 LTMP Consulting Team	1-9
1.4.2 Stakeholder Engagement and Participation	1-9
1.5 Document Organization	1-12
Chapter 2 Background.....	2-1
2.1 Monterey County Water Resources Agency Mission	2-2
2.2 Jurisdiction and Funding Mechanisms.....	2-2
2.3 Water Resource Management.....	2-5
2.3.1 Water Supply Operations.....	2-5
2.3.2 Flood Management.....	2-9
2.3.3 Facilities	2-10
2.4 MCWRA Projects and Programs	2-14
2.4.1 MCWRA-Led Projects and Programs.....	2-14
2.4.2 MCWRA Partnership Projects and Programs.....	2-20
2.5 Other Applicable Planning Efforts.....	2-35
2.5.1 Central Coast Wetlands Group	2-35
2.5.2 Resource Conservation District of Monterey County	2-38
2.5.3 Transportation Agency of Monterey County	2-40
2.5.4 Upper Salinas–Las Tablas Resource Conservation District	2-40

Chapter 3 Historical and Existing Conditions 3-1

- 3.1 Physical Characteristics..... 3-3
 - 3.1.1 Location..... 3-3
 - 3.1.2 Topography..... 3-3
 - 3.1.3 Geology 3-5
 - 3.1.4 Soils 3-10
 - 3.1.5 Climate 3-13
 - 3.1.6 Watersheds 3-15
 - 3.1.7 Hydrology and Geomorphology..... 3-18
 - 3.1.8 Historical Flooding 3-28
 - 3.1.9 Groundwater..... 3-33
 - 3.1.10 Water Quality 3-43
- 3.2 Land Use..... 3-49
 - 3.2.1 Historical Land Use 3-49
 - 3.2.2 Current Land Use Designations and Land Uses 3-53
 - 3.2.3 Protected Lands 3-56
- 3.3 Water Budget..... 3-61
- 3.4 Biological Resources 3-61
 - 3.4.1 Ecoregions..... 3-61
 - 3.4.2 Communities..... 3-65
 - 3.4.3 Special-Status Species..... 3-85
 - 3.4.4 Habitat Connectivity 3-90
- 3.5 Environmental Pressures and Stresses 3-94
 - 3.5.1 Changes in Natural Communities 3-95
 - 3.5.2 Altered River Hydrology..... 3-105
 - 3.5.3 Changes in Climate..... 3-113

Chapter 4 Management Plan..... 4-1

- 4.1 Management Plan Drivers 4-1
- 4.2 Management Objectives and Actions 4-2
 - 4.2.1 Approach..... 4-2
 - 4.2.2 Definitions of Key Terms..... 4-3
 - 4.2.3 Organization..... 4-3
 - 4.2.4 Recommended Management Objectives and Actions 4-5
- 4.3 Planning Considerations 4-28
 - 4.3.1 Opportunities Exist for LTMP Development 4-28
 - 4.3.2 Regulations May Drive Management Actions 4-28
 - 4.3.3 The Time is Ripe for Collaborative Implementation 4-29

- 4.3.4 Management Funding Sources are Needed 4-30
- 4.3.5 Re-Think Water Management Facility Needs 4-30
- 4.3.6 Share the Costs and Benefits of River Management 4-30
- 4.3.7 Flooding Affects the Community 4-31
- 4.3.8 Wildlife Needs Well-Connected Habitat in Good Condition..... 4-32
- 4.3.9 Ensure Lagoon Sandbar Management is Multi-Benefit 4-34
- 4.3.10 What Happens to Flood Flows and Reservoir Releases? 4-37
- 4.3.11 The River Changes Over Time 4-39
- 4.3.12 There is Support for Recreation..... 4-40
- Chapter 5 Implementation 5-1**
 - 5.1 Administration 5-1
 - 5.1.1 Responsibilities 5-1
 - 5.1.2 Governance Options 5-4
 - 5.2 Funding 5-5
 - 5.3 Relationship to Other Planning Efforts 5-7
 - 5.3.1 Habitat Conservation Plan 5-7
 - 5.3.2 Groundwater Sustainability Plans..... 5-7
 - 5.3.3 Implementation Partnerships 5-8
 - 5.4 Regulatory Compliance 5-8
- Chapter 6 References 6-1**
 - 6.1 Chapter 1, Introduction 6-1
 - 6.2 Chapter 2, Background 6-1
 - 6.3 Chapter 3, Historical and Existing Conditions 6-4
 - 6.4 Chapter 4, Management Plan 6-20
 - 6.5 Chapter 5, Implementation 6-21
- Appendix A Glossary**
- Appendix B Salinas River Long-Term Management Plan Stakeholder Issues Assessment Report**
- Appendix C Watersheds in the Study Area**
- Appendix D Community and Land Cover Mapping Methods**
- Appendix E Special-Status Species Potential to Occur Tables**
- Appendix F Species Accounts**
- Appendix G Data Collection and Data Gap Assessment**
- Appendix H Regulatory Context**
- Appendix I Grant Opportunities**
